

Beyond Micro-credit: Putting Development Back Into Micro-Finance

By Thomas Fisher and M.S. Sriram

Vistaar Publications, New Delhi, India, 2002. Paperback. Book Condition: New. First Edition. Micro-finance has emerged in recent years as a major tool for development and is fast growing as an international industry. This book explores how developmental goals and action can be put back into micro-finance. It sets out how micro-finance can be designed, in practice, to contribute to a wide range of developmental objectives, including social and economic security for poor people, promoting livelihoods, building democratic people's organisations, empowering women, and changing wider systems or institutions within society. It provides a detailed discussion on the fast expanding movement of savings and credit or 'self-help' groups in India, and presents a comparison of these groups with those promoted by the Grameen Bank in Bangladesh, reviewing the differences in their sustainability, outreach and impact on poor people. Printed Pages: 392.
