H1 Genuine circuit. signal and system analysis assembly (second edition)(Chinese Edition)

By LV YU QIN .

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pub Date :2000-09-01 Pages: 2000 Publisher: Beijing University of Posts and Telecommunications title: assembly of the circuit. signal and system analysis (Second Edition) List Price: 27.3 yuan Author: Lv Yuqin. Yin Xiao Li. Editor Publisher: Beijing Posts and Telecommunications University Publication Date: 2000-9 1 ISBN: 9.787.563.501.243 words: Page :2000 -09-01 Edition: Binding: Folio: Product ID: 430201 Editor's Choice No SUMMARY The book is a basic circuit analysis and Signals and Systems classroom teaching two courses supporting computer-aided analysis of reference books. The main content is to introduce the reader to some mature algorithms. such as solutions of linear algebraic equations. Gauss - Jordan elimination and LU decomposition algorithm to find a tree node with assimilation. the transient analysis Runge - Kutta method; numerical integration method. polynomial the Factored split factor method. The book is both arithmetic and program. explain the algorithm based on the Turbo C language written more than 20 masters programs. In order to take account of other languages. in the Appendix are endowed with Borland C. Visual C + +. Pascal and Matlab language utility example. The...
