The amount of deaths per annum is 33,333,333, or 91,954 per day, 3730 per hour, 60 per minute, or one per second. This loss is compensated by an equal number of births. The average duration of life throughout the globe is thirty-three years. Ono fourth of its population dies beforo the seventh year, and one half beforo the seventeenth. Out of 10,000 persons only one reaches his hundredth year; only one ln 500 his eightieth; and only one in 100 his sixty-fifth. Married people live longer than unmarried ores, and a tall man is likely to live longer thar. a short one. Until the fiftieth year, women have a better chance of life than men; but beyond that period the chances are equal. Sixty-five persons out of one thousand marry. The months of June and December are those in which marriage;...
