paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Pages Number: 253 Publisher: Beijing Institute of Technology Pub. Date :2011-08-01 version 1 Li Jin. Li the new editor of the mechanical engineering materials from the cold machinery of higher education teaching the actual needs. brief to learn about metals. materials and heat treatment of the basic content. Include: the development of materials and material science. material properties. crystal structure and crystallization of metal. alloy structure and crystallization of the iron-carbon alloy phase diagram. the metal plastic deformation and recrystallization. heat treatment of steel. industrial steel (a) industrial steel (b). special properties of steel. powder metallurgy and alloy. cast iron. nonferrous metals. non-metallic materials. metal parts of the selection and so on. End of the book there are appendices with Brinell hardness indentation diameter table. black metal hardness and strength calculation sheet. the mechanical properties of ferrous metal materials. old and new GB700 standard grade table. some domestic and foreign steel table. chemistry periodic table. Mechanical engineering materials can be cold as the professional institutions of higher learning machinery of trial materials. but also for mechanical design and technical personnel of enterprises to read reference. Contents: Chapter 0 Introduction 0.1 Materials and Materials Science. Materials Development 0.2 Classification and Application 0.3 course learning objectives. learning content and learning requires thinking questions Chapter 1 Chapter 2 of the material properties of the crystal structure and crystallization of metal 3 Chapter alloy structure and crystallization of iron-carbon alloys Chapter 4. Chapter 5 of the phase diagram of metal plastic deformation and recrystallization heat treatment of steel in Chapter 6 Chapter 7 Industrial Steel (a) Chapter 8 of industrial steel (b) 9 - Special performance steel and carbide powder Chapter 10 Chapter...
